EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Benjamin Urcia on 9/23/2005.

The application has been amended as follows:

Claim 1:

Line 2, the words "envelop" should be replaced by "envelope" (This occurs twice in the line).

Line 6, the word "envelop" should be replaced by "envelope".

Claim 3:

Line 2, the words "envelop" should be replaced by "envelope" (This occurs twice in the line).

Line 6, the word "envelop" should be replaced by "envelope".

Line 7, the word "envelop" should be replaced by "envelope".

Claim 5:

Line 2, the word "envelop" should be replaced by "envelope".

Allowable Subject Matter

Claims 1-9 are allowed.

Art Unit: 2879

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 1, and specifically comprising the limitation of a fluorescent display device including filaments connected to a base by means of one or more anchors and a support member separate from the anchor. Where the anchors includes an arm portion, that is slanted with respect to the lengthwise direction of the device, for providing tension and the support portion is provided at a direction normal to the lengthwise direction of the device. (See applicant's response filed 8/4/2005 for more details)

Regarding claims 2 and 4-7, claims 2 and 4-7 are allowable for the reasons given in claim 1 because of their dependency status from claim 1.

Regarding claim 3, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 3, and specifically comprising the limitation of a fluorescent display device including filaments connected to a base by means of one or more anchors and a support member separate from the anchor. Where the anchors includes an arm portion, that is slanted with respect to the lengthwise direction of the device, for providing tension and the support portion is provided at a direction normal to the lengthwise direction of the device.

Regarding claims 8 and 9, claims 8 and 9 are allowable for the reasons given in claim 3 because of their dependency status from claim 3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
